Forecast for Wednesday 23 Aug 2023

Weather: Most of the night will be dry but showers will develop along the west coast later. Many ranges away from the west coast starting off dry but cloud and showers developing through the morning away from the far north where it will remain dry until late morning. The afternoon and evening will often be cloudy with scattered showers. Showers may merge into longer spells of rain through the evening.

Chance of cloud-free hill tops above 800m: 50%, best chance first thing in the morning

Low Cloud and visibility: Good visibility outside of cloud and showers. Areas of cloud between 600 and 900 metres, this most extensive across Argyll and southern Lochaber where summits may often be shrouded in cloud by afternoon
